## ABOUT US

**Intellify** is an education initiative under **Solve Foundation**, to address the problems plaguing the Indian education system through a refreshed and innovative path. In collaboration with **Indian Road Safety Campaign** (Intellify's sister initiative under Solve Foundation) and **iSAFE: The Safer India Challenge**, we bring to you the **National Science and Creativity Program**.

The National Science and Creativity Program is a nationwide program that enables young minds to tap into and enhance their creative aptitude and abilities.

### The program taps into two areas of aptitude:

#### Creative

focused on measuring the innovative and creativity quotient of students and providing them with personalised feedback to improve the same.

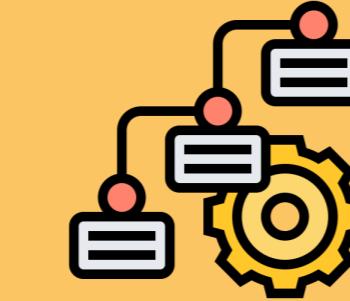

#### Science

focused on measuring the scientific quotient of the students with the help of concept-based questions on mathematics and science.

# SKILL-MAP

## ROUND 1

Reasoning Skills

Data Skills

BOTH ROUND 1&2

Scientific Literacy

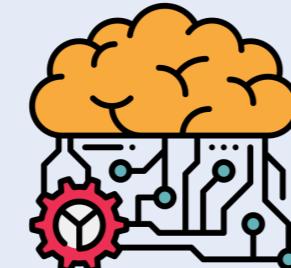

Numeral Literacy

Reading Literacy

## ROUND 2

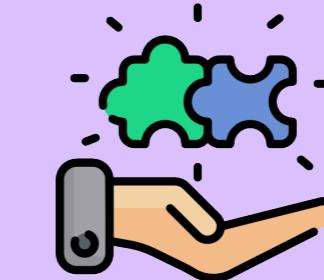

Working Memory

Processing Speed

## FINALE

Problem Solving

Hands on Skills

Design Skills

Team Coordination

## STRUCTURE

The NSCP works with a **skill-based** approach that measures student's conceptual understanding, benchmarks school's performance at a national & regional level with actionable insights through easy-to-understand reports.

## Who can take part?

### Group 1

Students of classes 5th and 6th

### Group 2

Students of classes 7th and 8th

### Group 3

Students of classes 9th and 10th

### Group 4

Students of classes 11th and 12th

**Note:** Schools must register at least 50 students (across all the 4 categories) in order to be eligible for the program.

# THE ROUNDS

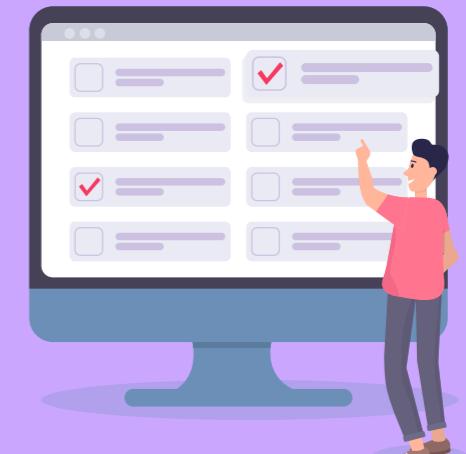

## ROUND 1

- Intra-School offline round (OMR based examination)
- The round 1 of NSCP will consist of an offline round (OMR based examination) which will be conducted in the school itself. The 1-hour examination will have two different sections to analyse students on the basis of their scientific and creativity quotient.
- The top scorer/performer from each group will progress to round two.
- Every participant will get certificate.

## ROUND 2

- Inter-School online round
- Round 2 will also be conducted in the school itself. The students participating in round 2 will be provided with their own unique login ID and password using which they can log in and take part on the day of the examination. Schools can conduct this exam either on computer or laptop or mobile phone.
- The top 100 scorers from across India will be selected for the Finale.
- Top 100 from each group will get Goodies and Smart Gadgets.
- Every participant will get certificate.

Question papers will be available in: हिंदी ENGLISH বাংলা தமிழ்

\*Schools will be required to bear the operational costs like printing question papers and OMRs, courier, etc.

## THE FINALE

Top 100 students from 80+ cities will be coming to IIT Delhi for a hands-on skill competition

The event will include various **panel discussions, workshops, quizzes, competitions** and performances for both teachers as well as the students.

**GADGETS**

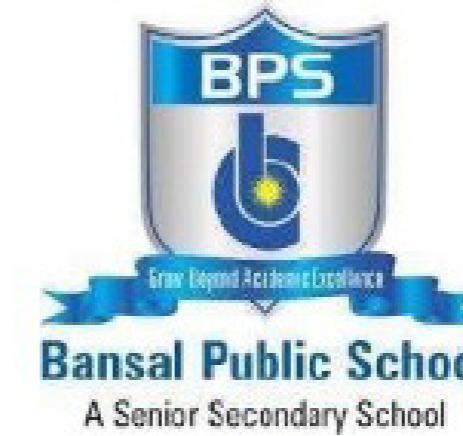

**SCHOLARSHIP**

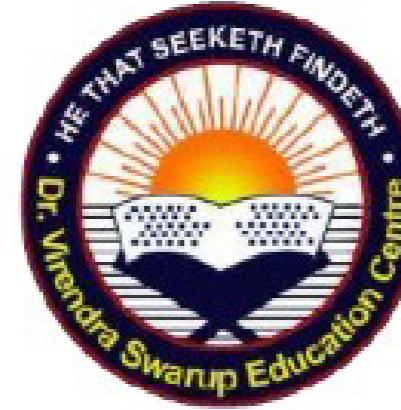

**FREE TRIP TO**
